Aims and Scope

This journal shares the research carried out through different disciplines in regards to optimization, control and their applications. The basic fields of this journal are linear, nonlinear, stochastic, parametric, discrete and dynamic programming; heuristic algorithms in optimization, control theory, game theory and their applications. Problems such as managerial decisions, time minimization, profit maximizations and other related topics are also shared in this journal. Besides the original research articles expository papers, which are hard to express or model, conference proceedings, book reviews and announcements are also welcome. IJOCTA is an international, bi-annual and peer-reviewed journal covered by indexes: *Cabell's Directories*, *DOAJ*, *EBSCO Databases*, *Genamics JournalSeek*, *Google Scholar*, *Index Copernicus*, *International Abstracts in Operations Research*, *JournalTOCs*, *MathSciNet*, *ProQuest*, *Tubitak Ulakbim*, *Ulrich's Periodical Directory*, *Zentralblatt Math*.

Editorial Board

AFRAIMOVICH, Valentin - San Luis Potosi University / Mexico

AGARWAL, Ravi P. - Texas A&M University Kingsville / USA
